PROFILE

Since 1982, Future Value Products Pvt. Ltd. is one of the largest mattress manufacturing group in the country. We feel proud to represent ourselves as the only manufacturer in the World manufacturing all types of mattresses i.e. Natural Latex Mattresses, Rubberized Coir Mattresses, Spring Mattresses and Polyurethane Foam Mattresses/Sheets, pillows, cushions and consumer-benefit-driven bedding products.

For over three decades, we have been introducing technological innovations to help the world sleep better every night, and to provide our quality products on a nationwide basis, we have established our manufacturing units all across India i.e. in Meerut (UP), Mumbai (Maharashtra) and Palakkad (Kerala).

Our continuous effort and commitment, helped consumers to attain a higher quality of sleep and with new innovations of superior mattresses encourage them to live a sound, active and healthy life.

Dr. Back® NATURAPEDIC MATTRESSES

are 100% Natural Latex mattress and a combination of Natural Latex with Natural Rubbirezed Coir. These Dr. Back® NaturaPedic range of mattresses are ideal bedding solution for natural healthy sleep. These mattresses are breathable and non-allergic, anti-dustmite and bug-resistant. They perfectly conforms to body shape. Covered with premium quality of quilted knitted fabric.

Dr. Back® **SPRING** BASE

Product

Spring Base/Bed ₹ 790/sqft.

Dr. Back® Spring Base is now, possibly the most popular and practical way to support your mattress. The mattress base consists of a soft wood skeleton frame crowned with a layer of high tensile bonnell springs attached to the top surface of the frame, upholstered in the traditional way consisting of multiple comfort layers. The mattress rests on the spring top surface, giving the whole bed a softer and springier feel as well as prolonging the life of your mattress.

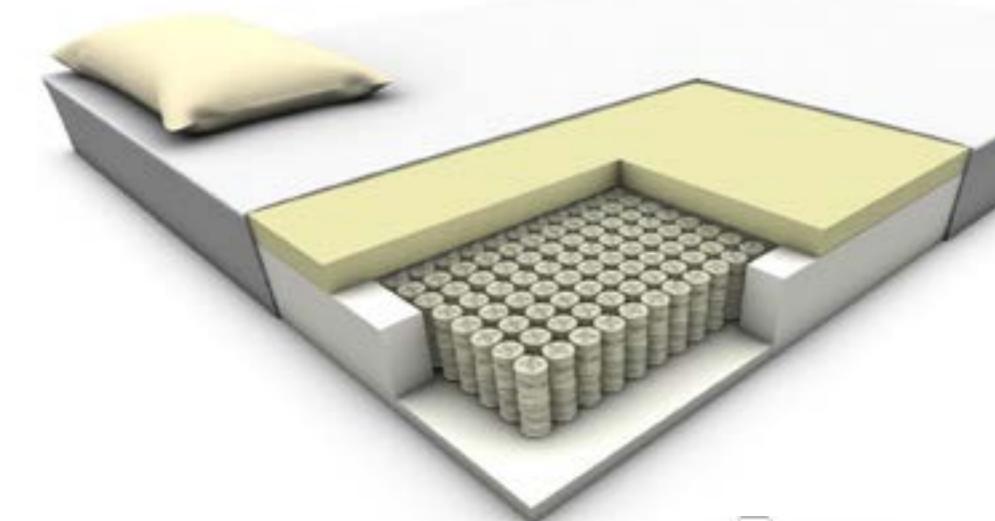

Dr. Back® POCKET SPRING ORTHOPEDIC MATTRESSES

uses the unique system of individual springs, envelops in its own calico pocket called Pocket Springs. The individual pocketed springs work in complete independence from one another, allowing the mattress to follow the natural shape of the individual, providing excellent support to the body - ensuring the spine is kept straight even if you sleep on your side, aiding a much healthier sleep.

Dr. Back® LUXURY MATTRESSES

is with extra comfort layer of Natural Latex sheet along with other comfort layers, layered on pocket springs.

The extra comfort layer of natural latex provides a responsive surface for pressure relief and appropriate support for your spine and your shape. Unlike most other foams, natural latex breathes, which discourages build-up of moisture and heat in the mattress interior. Natural latex sheet and pocket spring does not transfer motion, so that your partner does not get disturb. Natural Latex sheet contours to the body curves and moves with the sleeper as they move, providing continuous orthopedic support and a most comfortable sleep.

This unique combination of natural latex sheet with pocket springs lasts long maintaining their original shape and wonderful resilience.

Dr. Back® ORTHOPEDIC MATTRESSES

Dr. Back® Orthopedic Mattress

Buying a new orthopedic mattress is an important measure when it comes to the health of your back and indeed your body as a whole. Using Dr. Back® Orthopedic Mattress is one of the most important measures that you can take to ensure a good night's sleep and avoid back pain and muscular discomfort. Millions of people suffer from back and muscular problems needlessly and simply because they have not purchased, or considered purchasing, a good quality orthopedic mattress.

Why should you think about buying Dr. Back® Orthopedic Mattress?

In its optimum alignment, the human spine takes the form of a double "S" shape, a shape that an old or poorly supporting mattress may not be able to support. When this shape is not supported and encouraged by a good mattress, back problems can arise. Dr. Back® Orthopedic Mattress are constructed to provide spine, skeletal and muscular support as their main objectives and this is why they can help, rest and support our backs. This contributes to our overall well being.

What can happen if you sleep on a poor mattress?

Despite the fact that most older mattresses have a typical life expectancy of no more than 10 years, many people continue to use the same mattress for as long as 20 years. Once a mattress (even a good one) has reached this age it will have started to develop irregular support, failing springs, lumps and other potentially harmful irregularities.

Poor quality and worn out mattresses may not support the body properly and they can cause a number of temporary and permanent health difficulties. Many of these problems do not appear immediately as the aches and discomfort that signal oncoming problems may not be noticeable for weeks, or even months, after using the mattress.

The kind of ailments that can occur, or be aggravated, by an unsuitable mattress can range from a stiff or aching back, to chronic back pain. When these difficulties arise, continuing to use the mattress will simply aggravate the condition and escalate the problem. This is why a Dr. Back® Orthopedic Mattress, is good for your back.

What does Dr. Back® Orthopedic Mattress do?

Dr. Back® Orthopedic Mattress helps to encourage a good night's sleep by promoting a healthy back. It does this by ensuring that the spine is supported in the correct alignment with the avoidance of localized pressure points. People who are using Dr. Back® Orthopedic Mattress tend to sleep better, feel more rested in the morning and move around and wake up less frequently during the night.

Remember, Dr. Back® Orthopedic Mattress will benefit any sleeper, whatever their age or state of health and it can also act as preventative measure in protecting against future back and lumbar problems.

Today Dr. Back® Orthopedic Mattress comes in a number of different constructions and the modern view is that, rather than being very hard, a mattress should have the ability to contour and mould. This enables the mattress to fill the gap under the lower back whilst still being firm and offering support the rest of the body without sagging or deflecting.

Types of Dr. Back® Orthopedic Mattresses

Dr. Back® Orthopedic Mattresses are available in a vast array of different constructions and compositions. The recent developments in mattress construction have resulted in materials like memory foam, natural rubberized coir, natural latex, polyurethane foam and numerous variations of the spring systems, all being used and mixed together for different mattress variants, that combine a mix of orthopedic qualities from spring, memory foam, natural rubberized coir, natural latex and polyurethane foam, resulting to produce the best orthopedic mattress in the world - Dr. Back® Orthopedic Mattress
